HIWS1 DRILL ROD ONE-PIECE FORGED

This precision drill pipe is unmatched in performance, thread life, and strength. Every stick of HIWS1 drill pipe is built to higher & tougher standards than any other pipe in the industry.

Features & Benefits

- Special USA made I-145-grade alloy steel material
- Steep-tapered, deep stabbing connection
- Fastpitch thread for quick make up
- Double-shouldered design for added torque
- Internal and external upset to optimize strength and performance
- Conditioning of connections to assist thread compound adhesion
- Protectors applied to pin and box connections to prevent damage

HXT™ DRILL ROD ONE-PIECE FORGED

HXT™ is engineered to be the toughest, longest lasting pipe you'll ever drill with. The HXT™ Drill Pipe is built to the same standards as the HIWS1 while offering a patented design to increase torque capabilities as it resists flaring. The HXT™ is designed with larger IDs to allow an increase in flow capacity.

Features & Benefits

- 30% increase in torque
- Up to 44% increase in flow capacity
- Best choice for Air Hammers / Mud Motors

400-234	Inner Rod	N/A	4.7"
41LZ94	Coiled Spring Pin	N/A	1.5"

LINED

Features & Benefits:

- Do you know the value of lined drill pipe? Lined pipe reduces drilling fluids by up to 70% resulting in less waste.
- Spend less time pressuring up and more time drilling.
- Hunting's durable one-piece forged design eliminates joints and welds.
- By combining one-piece forged with lined pipe, Hunting makes the decision simple. It's the best of both worlds.

DITCH WITCH AT100 PIPE

ADVANTAGE

The High Quality, Low Cost Alternative

Low Cost doesn't mean Low Quality. The Hunting Advantage drill rod is inertia-welded and has been thoroughly tested. It meets all of the tolerances and quality standards set by Hunting at a very competitive price.

CONSIGNMENT IN 4 EASY STEPS

Do You Have Equipment Collecting Rust & Dust?

Let us help you sell your equipment and we will advertise your equipment to our database of worldwide customers! Our network of directional drill companies, and suppliers, makes selling your equipment a breeze. With thousands of visitors to our website, along with listing websites, social media, and our ever-growing newsletter subscriber list, your equipment will be sold before you know it!

31//

Step 1 Contact Us!

We have a team that's ready to answer any questions you may have and get your equipment advertised as soon as possible!

Step 2 Submit Info & Media

Send in the specific information that you believe will best sell your equipment. Include pictures, video, specifications, and custom adjustments/additions.

Step 3 Get Your Free Appraisal

The appraisal is done by our owner, Mark Flaman! For any and all equipment, we will provide buyers with custom finance payment plans for your equipment.

Step 4 Get Your Equipment Promoted

We will advertise your equipment to the World using our variety of listing websites and beyond!

Contact Us Today!

In many cases we will be able to locate and ship a particular item in a matter of days!

Geith Attachments

We're excited about our new partnership with Geith attachments. We know that you will be too!

Geith quick hitches feature a patented pin locking system and design to ensure the attachment is in a safe position in the event of a hydraulic power loss. These fully automatic hitches, with 4 independent safety components, ensure a safe changeover of attachments without the need for the operator to leave the excavator cab.

"It is possibly the most mature and proven product available today on the market. And safety is our number one priority; it is in the Geith workforce and DNA".

Available Geith Products:

- Demolition Attachments
- Excavator Buckets
- Pallet Forks
- Quick Couplers
- Rippers
- Tilting Buckets

Geith Angle Tilt Bucket

Increase the adaptability and productivity of your excavator with a Geith Tilt Bucket! This is a cost effective and long lasting solution for work ranging from the standard ditching and grabbing to backfilling and light material loading & handling.

- Slope Finishing
- Land Clearing
- Waste Handling
- Grading

Features:

- Range from 2 - 29 tons
- Optimum pivotal arrangement provides 90 degree tilt (45 degrees in either direction)
- Two heavy duty hydraulic cylinders with hardened rods for excellent holding power
- Spill & Cylinder Guards with hardened rods for excellent holding power
- Flow Control Valves for easy adjustment of tilting speed
- Increased bucket strength
- Corrosion resistant high tensile pivot pins
- Dual mechanical stops to extend cylinder life

Black Cat Wear Parts

We are now a proud vendor of Black Cat Wear Parts!

Their team of engineers have designed wear parts for all OEM brands of earthmoving equipment that stand up to the toughest demands. Their state-of-the-art technology allows them to forge parts that are heat tested to meet your heavy-duty needs.

Available Black Cat Wear Parts:

- Bucket Protection
- Dozer Edges & Accessories
- Direct Replacement Parts
- Edges & Segments
- Load Haul Dump Lip Shroud
- Revolution Shovel
- Snow Plow Attachments
- Wear Accessories

Black Cat Cast Dozer Blades

Black Cat Wear Parts manufactures a complete range of edges and end bits for all makes and models of dozers—from small utility class up to the latest mining series. Black Cat Wear Parts has the highest quality edges and end bits engineered for specific applications.

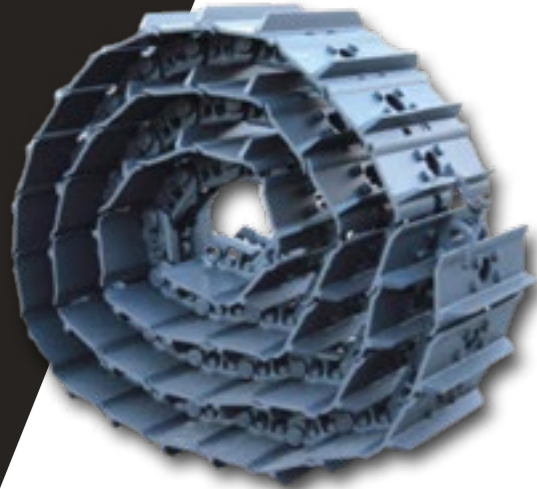

Black Cat Wear Parts dozer cutting edges and end bits are available in:

- Standard Duty
- Heavy-Duty
- Extra Heavy-Duty
- Custom
- Carbide Impregnated

Black Cat also provides the highest quality hardware for your cutting edge hole type

Trek Undercarriage

With our partnership with Trek Undercarriage, we are now able offer our customers even more options for their heavy-duty needs!

Since 1957 Trek has been a trusted leader in the marketplace, offering Quality and Reliable Undercarriage parts at a Competitive Price. Trek offers a written warranty unmatched by any other undercarriage distribution network in the aftermarket!

Track Group Assemblies are built with Trek Track Chains, developed with over 50 years of experience.

Trek Track Chains are produced using state of the art technology, during the forging, heat treatment, and machining processes. Trek uses only the finest quality of steel to provide heavy duty chains, designed to be directly interchangeable with your equipment's original assembly.

Trek Track Link Assembly

Trek Chains are made from the finest quality of steel, using the latest production technology to ensure wear resistance and a long life.

Links are forged from boron alloy steels, quenched and tempered for a strong core hardness. The deep induction hardens on the wear surface to provide excellent service life. Trek Pins and Bushings undergo a special heat treatment process to ensure you get exception strength and shock resistance, resulting in a longer wear life. Trek's unique seal design also prolongs pin and bushing life by keeping the lubricants in and the contaminants out.

Available for:

- Caterpillar
- John Deere
- Hitachi
- Komatsu
- Case
- and More!
