

HIWS1 HDD Drill Pipe

1000 Series

It's not just a stick of pipe. It's the lifeline of your next job. If it fails, you fail. That's why Hunting pioneered the one-piece forged design around a zero-fail philosophy. From raw materials to final machining, every stick of HIWS1 drill pipe is built to tougher standards than any other pipe in the industry. It's tougher than it has to be ... because you can't afford to fail.

- Designed to fit Vermeer® Series II rigs in the 100,000-lb pullback class
- Durable one-piece forged design eliminates joints and welds—the number one source of pipe failure in competitive design
- Large inner diameter for increased fluid flow and a more productive bore
- Crafted from a proprietary I-135 steel alloy that's engineered for durability and flexibility
- Double-shoulder design to handle increased torque
- Rugged, precision-machined threads make up and break out faster—with less fatigue—than any other pipe in the industry
- Designed, manufactured and tested by the company that's been providing drill pipe longer than anyone else

SPECIFICATIONS	U.S.	METRIC
PIPE		
OUTSIDE DIAMETER	3.5 IN	8.9 CM
WALL THICKNESS	.476 IN	1.2 CM
TOOL JOINT		
OUTSIDE DIAMETER	4.375 IN	11.1 CM
INSIDE DIAMETER	2.25 IN	5.7 CM
LENGTH	20 FT	6.1 M
WEIGHT	351 LBS	159.2 KG
BEND RADIUS	197 FT	60 M
TORQUE RATING	15,000 FT-LB	20,337 NM
