

# HIWS1 HDD Drill Pipe

650 Series: Designed to Fit Vermeer D36X50 and D33X44 Series II rigs

At Hunting, our philosophy is to engineer, design and manufacture drill pipe that provides you with the toughest, longest-lasting pipe you'll ever drill with. Which is a pretty big statement, coming from the company that's been building drill pipe to the toughest standards in the industry for over two decades.

Hunting has the tooling to get you connected, including saver subs and drive chucks. And, just like our drill pipe, every piece of tooling is thoroughly inspected to give you the quality you should expect from Hunting.
